

Massimo Ginella  
CS24 Elementary Computer Organization  
Week 13 Lab Hours  
Lab time: 6 Hours

- Spent time trying to figure out what a 74HC595 is. Eventually got it.
- Watched some videos and took some more notes on 74HC595.
- Watched some videos on pipelining and did some extra practice problems outside of the Chapter Homework.
- Watched some videos and took some notes on rotary encoders.
- Took some time to understand the layout of the 7 segment display
- Tried to progress through the 2nd arduino lab but realized that I don't have x2 7 segment displays and the kit doesn't come with a rotary encoder...
