

Massimo Ginella
CS24 Elementary Computer Organization
Week 09 Lab Hours
Lab time: 4 Hours

- Read some extra chapters in the “Getting started with Arduino” textbook
- Tried some arduino example projects from the textbook.
- Read and started brainstorming ways to approach the second arduino lab
- Spent a lot of time writing the Midterm 1 cover sheet for points back. Also found some large errors in the grading of my midterm which I have since resolved with Steve.
