Massimo Ginella
CS24 Elementary Computer Organization
Week 08 Lab Hours
Lab time: 5 Hours

- Watched some videos on getting started with arduinos again to refresh memory.

- Tried some arduino example projects from the textbook.

- Spent a lot of time wiring and coding the first arduino lab for this class.

- Spent some time writing down some ideas I have for independent arduino projects in the future. (Facial recognition door lock, remote car starter, automatic plant irrigation system, remote gel blaster turret)
